

Corporate governance report

The German Corporate Governance Code has been applicable since 2002. It was updated in May 2015 and contains regulations, recommendations and suggestions for good and responsible corporate management. The purpose of the Code is to create greater transparency, thus increasing the confidence of investors, customers, employees and the public in the corporate management of German companies. 3U HOLDING AG welcomes the provisions of the German Corporate Governance Code (GCGC), which serves the interests of the companies as well as its investors.

Sound, systematic corporate governance is particularly important for a group such as 3U HOLDING AG with its numerous subsidiaries. The Supervisory Board and the Management Board are convinced that sound corporate governance, taking company and industry-specific issues into account, is an important building block for the future success of 3U HOLDING AG. Accordingly, responsibility for compliance with the principles of sound corporate governance is vested in senior management.

In the financial year 2015, the Management Board and Supervisory Board once again carefully examined the corporate governance of 3U HOLDING AG and the Group as well as the contents of the German Corporate Governance Code. During the reporting period, as in prior years, 3U HOLDING AG again fulfilled most of the Code's recommendations.

Declaration by the Management Board and the Supervisory Board of 3U HOLDING AG on the recommendations of the Government Commission on the German Corporate Governance Code in accordance with section 161 of the AktG (German Stock Corporation Act)

3U HOLDING AG submitted the declaration of conformity required according to the German Stock Corporation Act during the reporting period on March 12, 2015 and most currently on March 1, 2016. It can be viewed permanently on its website (www.3u.net) under the path "Investor Relations/Corporate Governance".

Declaration by the Management Board and the Supervisory Board of 3U HOLDING AG on the recommendations of the Government Commission on the German Corporate Governance Code in accordance with section 161 of the AktG

1. Since last submitting a declaration of conformity on March 12, 2015, 3U HOLDING AG has complied with the recommendations of the Government Commission on the German Corporate Governance Code as set out in the then valid version of the German Corporate Governance Code dated June 24, 2014 with the following exceptions:

- Code article 3.8: The directors' and officers' liability insurance policy does not include a deductible for members of the Supervisory Board. In this respect, 3U HOLDING AG is of the opinion that the level of responsibility and motivation with which the members of Supervisory Board of the Company perform their tasks would not be improved by any such deductible.
- Code article 4.1.5: In making appointments to senior positions, the Management Board is guided by the specific requirements of the function and looks for the best possible person meeting these requirements. If several equally qualified candidates are available, the Management Board takes into account the principles of diversity and an appropriate consideration of women by filling vacancies without making these criteria a priority principle.
- Code article 4.2.3: The Supervisory Board has not stipulated a cap for compensation to be paid to Members of the Management Board (max. 2 years' salary) because the contracts have only a limited period of 3 years. Accordingly, the proposed limit of possible compensation claims of Board Members as intended with 4.2.3 is already inherently included in the employment contracts of the Board Members.
- Code article 5.1.2: The appointments to the Management Board made by the Supervisory Board are based on suitability and qualification and are aimed to fill the jobs with the best candidates. The Company believes that special weighting of other criteria to select potential candidates as prescribed by the Code would limit the options for the Management Board.
- Code article 5.4.1: In the cast of the Supervisory Board it applies as well that ability, experience and qualifications are the relevant selection criteria. To oblige to targets in terms of future appointments restricts the flexibility that would entail no

other advantages for the Company. This is all the more because the Supervisory Board currently consists of only three members.

2. In future, 3U HOLDING AG will comply with the recommendations of the Government Commission on the German Corporate Governance Code in the version dated May 5, 2015 with the following exceptions:

- Code article 3.8: The directors' and officers' liability insurance policy does not include a deductible for members of the Supervisory Board. In this respect, 3U HOLDING AG is of the opinion that the level of responsibility and motivation with which the members of Supervisory Board of the Company perform their tasks would not be improved by any such deductible.

Further development of Corporate Governance

3U HOLDING AG continues to develop its understanding of good and responsible corporate governance. A professional and efficient management and control within the Group are based on governance, risk and compliance systems.

Primarily risks must be prevented there, where they may arise, and if this is not possible, they must be recognized and reduced. To ensure this, as automated as possible internal controls in the business processes are implemented. Since this is not fully implementable in any case, the effectiveness of the control system must be ensured by additional control measures by the management.

Secondly this is done for example by via policies and standard operating procedures. Close integration of the internal control system, risk management system and compliance management system maximizes the efficiency of risk prevention and management.

The risk manager of the Group monitors through independent audits the adequacy and effectiveness of the implemented processes and systems for risk management in the broadest sense. The Risk Manager reports directly to the CEO and the Supervisory Board. The model is completed by the external monitoring of the auditor, who incorporates the results of the audits by the risk manager in his own assessment.

Appropriate control and risk management

Corporate governance at 3U HOLDING AG involves dealing responsibly with risks. The continuous and systematic management of business opportunities and risks is fundamental to professional governance. It helps ensure that risks are identified, evaluated and managed at an early stage. The Management Board reports regularly to the Supervisory Board about the status of the main risks in the Group. The Supervisory Board focuses on monitoring the effectiveness of the accounting process and the internal control and risk management. 3U HOLDING AG continuously enhances the individual systems and adapts them to changing conditions. Key features of our control and risk management system are described in the opportunity and risk report.

Compliance

Compliance, in the sense of measures to ensure adherence to statutory requirements and internal company policies is a key management duty at 3U HOLDING AG. It contains a clear commitment to compliance with the law and internal policies: violations will not be tolerated (zero tolerance). All reports of misconduct will be pursued.

Objectives of the Supervisory Board and the Management Board with regard to their respective composition and the composition of the management levels below the Management Board

Currently the Supervisory Board consists of three male members. Their appointment was made until the end of the Annual General Meeting deciding on the discharge for the financial year 2017. Neither an enlargement of the Supervisory Board is planned nor a change in the Supervisory Board. Therefore, the Supervisory Board has decided on September 30, 2015 that the target to reach for the proportion of women in the Supervisory Board of 3U HOLDING AG by June 30, 2017 is 0 %.

The Management Board currently consists of three male members. The Supervisory Board is of the opinion that the Management Board positions are currently best possible occupied and an enlargement of the Management Board is not appropriate in terms of the Company size and structure. Therefore, the Supervisory Board has decided on September 30, 2015 that the target to reach for the proportion of women in the Management Board of 3U HOLDING AG by June 30, 2017 is 0 %.

There is currently only one management level below the Management Board level in the 3U HOLDING AG, which currently consists of three male members. The Management Board has decided on September 30, 2015 that the target to reach for the proportion of women in the management level below the Management Board of 3U HOLDING AG by June 30, 2017 is 0 %.

Avoidance of conflicts of interest

There were consulting or other service agreements between Members of the Supervisory Board and the Company during the reporting year. The contractual relationships in the financial year are disclosed in the remuneration report. Conflicts of interest of Management or Supervisory Board members, which are to be disclosed to the Supervisory Board without delay, did not occur.

The transactions with related parties are shown in the notes to the consolidated financial statements in 8.3.

Disclosure of securities transactions and shareholdings of Management and Supervisory Board

According to § 15a Securities Trading Act (WpHG), members of the Management Board and Supervisory Board and persons close to them are required by law to disclose the purchase and sale of 3U HOLDING AG shares or related financial instruments whenever the value of the transactions amounts to EUR 5,000 or more within a calendar year. Remuneration Report

The remuneration report summarises the principles determining the remuneration of the Management Board and Supervisory Board at 3U HOLDING AG and explains the amount and structure of the remuneration. The remuneration report is created on the basis of the recommendations of the German Corporate Governance Code, also containing the disclosures required in line with the German Commercial Code, supplemented by the Disclosure of Management Board Remuneration Act (VorstOG).

Remuneration of the Management Board

The structure and amount of remuneration of Board Members are determined by the Supervisory Board and reviewed regularly. In doing so the Supervisory Board respects the law stipulating the appropriateness of executive remuneration (VorstAG) which became effective August 5, 2009.

All Members of the Management Board of 3U HOLDING AG receive a fixed basic salary (fixed component), which is paid in monthly instalments. In addition, all members of the Management Board receive variable performance-based remuneration (performance related components). The performance-based remuneration is composed of a quantitative sub-goal and a qualitative sub-goal. If the quantitative sub-goal is achieved, the Supervisory Board primarily assesses the audited value of the EBITDA performance of the Group in relation to the budgeted value: a significant miss of budgeted sales targets can lead to deductions. Within the scope of achieving the qualitative target the Supervisory Board assesses the processing of priority tasks of the Management Board as well as the achievement of personal goals of the Management Board as set by the Supervisory Board. The Supervisory Board always determines objectives at the beginning of each financial year under consideration of the Group's situation.

Furthermore, the Members of the Management Board were granted a specific number of stock options in the 2011 stock option plan. The granting of stock options aims to reward the contribution of the Management Board (and the other employees of the 3U Group) to increased enterprise value and to encourage the long-term success of the Company.

Starting with the calendar year 2011, a part of the performance-related remuneration of a financial year will be paid under the condition that the Management Board is also going to sustainably manage the affairs of the Company in the next two years following the financial year in question. Regarding sustainability, especially the stability of the EBITDA performance of the Group and the investment structure as well as the motivation of the employees is considered. The Supervisory Board will assess the sustainability in the two years following the financial year and reclaim the partial amounts of the performance-related remuneration paid if the sustainability in business management is not warranted. A performance-related remuneration which has to be refunded by the Management Board has to be paid by the Management Board within 90 days after receipt of the written reclaim demand from the Supervisory Board.

In accordance with Article 87 par. 2 par. 1 AktG, the Supervisory Board is entitled to lower the remunerations of the Management Board appropriately if the situation of the Group worsens after the fixation of the remunerations and the continued granting of these remunerations would be inequitable for the Group. This also applies for the granting of any share options for remuneration purposes.

If the appointment to member of the Management Board is revoked for an important reason according to Article 84 par. 3 AktG, there exists no entitlement for a performance-related remuneration for this financial year as well as for any further financial years until expiration of the employment contract as member of the Management Board.

No pension commitments were given to the Members of the Management Board. The remuneration of the Members of the Management Board with individual details, broken down into fixed and performance-related components are shown below.
